How Clinical Education works

A simple learning workflow with records you can keep and use.

1

Browse

Explore clinical, handbook, leadership and professional-development modules.

2

Learn

Read structured material grounded in current sources and review dates.

3

Complete

Take the module assessment and retain your attempt history.

4

Record

Use the CPD diary to keep Clinical Education and external learning together.

5

Certify

Download certificates for eligible completed modules.

6

Contribute

Submit articles and other educational material for editorial review and possible publishing.

Free to use

No subscription is required. Completion certificates confirm participation/completion and do not automatically represent externally accredited CPD unless a module explicitly states otherwise.
